

34009 ALVARADO-NILES ROAD  
UNION CITY, CALIFORNIA 94587  
(510) 471-3232

Dear Business Owner:

The City of Union City is partnering with PG&E to help Union City's businesses become more energy efficient. The "Union City Energy Smart" program will help businesses cut costs and reduce community-wide greenhouse gas emissions.

We know from auditing our own City facilities that free or inexpensive upgrades can often save substantial amounts of energy. We have taken advantage of PG&E's technical assistance and rebate programs to improve energy efficiency in a number of our facilities, and we encourage you to consider doing the same.

PG&E will be in your neighborhood this September and October to discuss low and no-cost measures to help you save money. They will be offering:

- No cost energy efficiency surveys
- Comprehensive lighting and HVAC upgrades
- Quality assurance inspections
- Incentives to decrease installation costs

To learn more and sign up for a free audit, please call 1-888-584-0441 or e-mail [energyinformation@pge.com](mailto:energyinformation@pge.com).

You may also contact Amelia Schmale, City of Union City Sustainability Coordinator, at (510) 675-5323, for more information about this joint effort between the City of Union City and PG&E.

Sincerely,

Larry Cheeves  
City Manager
